Verse 1

We can live a life
of certainty and pride
and yet there's something more
we can't deny

The way it stands behind
small wonders of all kinds
The newborn child is here
for us to cheer...

Refrain

Somebody's got to say, say those words,
say those words that everyone remembers
Gee, it's the Christmas Time!
Come on now and celebrate December
Yeah, take every chance you have
to praise the love
of God!
Hallelujah!

Verse 2

Warmth is in the cold
The darkness turns to light
The love is in the child
and never dies

Hear it through the noise,
the angel's mighty voice!
And as she sings her song
you'll come along...

Refrain

Somebody's got to say, say those words,
say those words that everyone remembers
Gee, it's the Christmas Time!
Come on now and celebrate December
Yeah, take every chance you have
to praise the love...

Bridge

...that we see in the eyes of all the children,
...that we hear in the songs of the world

Final

Somebody's got to say it now!
Say those words that everyone remembers:
Gee, it's the Christmas Time!
Come on now and celebrate December
Yeah, take every chance you have
to praise the love
of God!
